

PHAB Course Catalog

2022 – 2023

EducationServices@phaboard.org

Available in the Learning Center

The Public Health Accreditation Board (PHAB) offers courses and trainings to support health departments through the Initial Accreditation, Reaccreditation and Pathways Recognition processes. Explore the course catalog for a complete listing of PHAB course offerings. Many courses within the Learning Center related to Initial Accreditation, Reaccreditation and Pathways Recognition are available to health departments after they have paid the Readiness and Training fee, unless otherwise indicated as “Open Access.”

See a course you’re interested in? Search the corresponding course number in the Learning Center to get started!

The Learning Center

All courses are available on the Learning Center, PHAB’s e-learning platform. PHAB will automatically enroll the Accreditation Coordinator (AC) and the Health Department Director (HDD) in the Learning Center and assign the required and recommended courses for Initial Accreditation, Reaccreditation or Pathways Recognition. Additional staff can access the training at the request of the AC or HDD. These staff members should create an account in the Learning Center to access these and other PHAB resources. Once they have created the account, the AC or HDD should reach out to educationservices@phaboard.org and request these individuals be added to the specific journey or course.

The courses will be packaged as a **journey**, a set of related courses to guide you through the respective process.

To create an account in the Learning Center

1. Go to the [PHAB Website](#) Click on the link that says “Learning Center” in the top right corner.
2. You will be taken to a form that allows you to register for a Learning Center Account. You will need the following information:
 - a. First Name
 - b. Last Name
 - c. Email
 - d. Organization/Health Department Name
 - e. State
 - f. Self-Registration User Groups (select any option from the list below that most closely reflects your training and development needs)

To access an existing account

1. Go to the [PHAB Website](#) and click on the link that says “Learning Center” in the top right corner.
2. Scroll down on the page and click on the link that says, “*Already have an account?*”
3. Log in using your email and specified password

To access a journey

1. **Email Link:** If you received an email that a PHAB Journey was assigned to you, please click the link in the email to go directly to the journey.
2. **Access from Login Page:** If you are accessing the Journey from the login page, click on the lightbulb. This is most often in the top left corner of your browser window, but it can change depending on the device you are using. Once you click on the Journey you will see two options:
 - a. *Learning* – access all courses in your Learning Library
 - b. *Journeys* – access courses assigned to a specific Journey

Additional Courses

PHAB offers additional courses to support your engagement with and understanding of public health practice, innovation, and transformation. These courses are available in the Learning Center within the **Learning Library**. You may find additional courses by searching the course number.

Key

(O) – Open Access

(R) – Required as part of the training for Initial Accreditation, Reaccreditation, or Pathways Recognition

General

Course Code	Course	Course Description
PHAB01 (O)	Introduction to PHAB	This course provides a general overview of PHAB, Initial Accreditation, Reaccreditation, and the Pathways Recognition programs. While this course currently focuses on PHAB's role as a national accrediting body, the organization is also home to the Public Health National Center for Innovations and other efforts to support public health innovation and transformation.
PHABRA01 (O)	PHAB Readiness Assessment	This is an introductory course on the PHAB Readiness Assessment for health departments to develop the basic knowledge and understanding about the Readiness Assessment.

Initial Accreditation

Course Code	Course	Course Description
PHAB01	Introduction to PHAB	This course provides a general overview of PHAB, Initial Accreditation, Reaccreditation, and the Pathways Recognition programs.

PHABRA02 (R)	PHAB Readiness Assessment – Deep Dive	This is an introductory course on the PHAB Readiness Assessment for health departments to develop the basic knowledge and understanding about the Readiness Assessment.
IAPW01	Introduction to Accreditation and Pathways	This course is an orientation to the Initial Accreditation and Pathways Recognition processes and provides insights to take into consideration as health departments consider its application.
IA02 (R)	Initial Accreditation Basics	This is an introductory course on the Initial Accreditation Process for health departments. It will support health departments to develop the basic knowledge and understanding about the Initial Accreditation process and all that is involved in seeking Initial Accreditation.
IAPW02 (R)	Documentation Basics – IA/PW	This course provides an overview of how to collect, organize and prepare appropriate documentation for Initial Accreditation and Pathways Recognition.
IA01	Initial Accreditation Documentation Forms – Version 2022	This course gives you access to the documentation forms you will need when completing the Initial Accreditation process under Version 2022 Standards and Measures.
EPHAB01 (R)	E-PHAB for Health Departments – IA	This course gives you access to information about PHAB’s e-PHAB system, the platform where documents are uploaded and submitted for review during the Initial Accreditation process.

Rec accreditation

Course Code	Course	Course Description
PHAB01	Introduction to PHAB	This course provides a general overview of PHAB, Initial Accreditation, Rec accreditation, and the Pathways Recognition programs.
REA02 (R)	Rec accreditation Basics	This course provides an opportunity for health departments to develop the basic knowledge and understanding about the Rec accreditation process and requirements under the Version 2022 Standards & Measures.
REA03 (R)	Documentation Basics – IA/PW	This course provides an overview of how to collect, organize and prepare appropriate documentation for Initial Accreditation and Pathways Recognition.
REA01	Rec accreditation Documentation Forms – Version 2022	This course will provide you with the documentation forms you will need when completing the Rec accreditation process under Version 2022 Standards & Measures.

EPHAB03 (R)	E-PHAB for Health Departments - RA	This course gives you access to information about PHAB's e-PHAB system. The e-PHAB system will be where documents are uploaded and submitted for review during the Reaccreditation process. This is also the platform health departments will use to upload their annual reports and other documents that may be requested by PHAB over time.
